SETTLEMENT AGREEMENT

This Settlement Agreement (alternatively referred to as the "Agreement" or "Release") is made and entered into as of December 20, 1995 by and among As You Sow (the "AYS"), and Berg Lacquer Company, Inc. doing business as Ellis Paint Company (collectively referred to as "Ellis"), both of which are hereinafter referred to as the "Parties."

This Agreement is entered into with reference to the following facts:

RECITALS

A. AYS is a not-for-profit public interest foundation dedicated to promoting consumer and worker awareness, protecting the environment and improving human health;

B. Ellis is a corporation headquartered in California that manufactures and/or distributes various products in the State of California, some of which contain Proposition 65-listed chemicals;

C. A list of products that contain the Proposition 65-listed chemicals and which are covered by this Agreement is provided in Exhibit A (the "Products");

D. The Products have been distributed and sold by Ellis for use in California since January, 1987;

E. On January 9, 1995, AYS first served Ellis and all of the requisite public enforcement agencies with a document entitled "60-Day Notice" which provided Ellis and such public enforcers with notice that Ellis was allegedly in violation of Health & Safety Code § 25249.6 for failing to warn purchasers that certain products it sells in California expose users to Proposition 65-listed chemicals; and

F. On August 24, 1995, AYS filed a complaint entitled As You Sow v. Ellis Paint Company, et al. (No. 393446) in the San Mateo Superior Court (the "AYS Action"), naming Ellis as a defendant and alleging violations of Health & Safety Code § 25249.6 on behalf of individuals in California who allegedly are exposed to Proposition 65-listed chemicals contained in Ellis Products.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:

1. **Product Labeling.** Beginning immediately, Ellis shall initiate revisions to its current labels for the Products. Ellis shall use its best efforts to ensure that all Products are relabeled as quickly as possible. However, Ellis agrees that as of May 31, 1996, it shall not ship (or cause to be shipped) any of the Products for sale or use in or into the State of California unless each such Product contains the appropriate warning statement on its label as follows:

- 1.1. For Products containing a chemical listed by the State of California as known to cause birth defects or other reproductive harm:

"WARNING: This product contains a chemical known to the State of California to cause birth defects or other reproductive harm."

- 1.2. For Products containing a chemical listed by the State of California as known to cause cancer:

"WARNING: This product contains a chemical known to the State of California to cause cancer."

- 1.3. For Products containing any combination of chemicals listed by the State of California as known to cause cancer and known to cause birth defects or other reproductive harm, a label stating both warnings in full as set forth in subparagraphs 1.1 and 1.2, above, as follows:

"WARNING: This product contains a chemical known to the State of California to cause birth defects or other reproductive harm."

"WARNING: This product contains a chemical known to the State of California to cause cancer."

The warning statement shall be prominent and displayed with such conspicuousness, as compared with other words, statements, or designs, as to render it likely to be read and understood by an ordinary individual. The parties agree that the sample label attached hereto as Exhibit B satisfies this requirement.

2. Restitution. In accordance with the payment terms stated in paragraph 5 of this Agreement, Ellis agrees to pay \$17,000 to AYS as restitution. This payment, which is made pursuant to Business & Professions Code § 17203, shall be forwarded by AYS to The Sierra Club Legal Defense Fund, an environmental organization dedicated to the enforcement of environmental laws; The National Media Project, a project of the Institute of Social Justice, producing a progressive weekly radio program covering environmental and other policy issues, including the reduction of toxic exposures at the community level; Silicon Valley Toxics Group, an environmental group specializing in environmental education, including California's Proposition 65; and The Data Center, a nationally-recognized clearinghouse of information used by researchers and activists to research social change issues, and to improve awareness regarding toxic hazards.

3. Penalty. The parties agree that penalties pursuant to Health & Safety Code §25249.7(b) are waived.

4. Reimbursement of Fees and Costs. In accordance with the payment terms stated in paragraph 5 of this Agreement, Ellis agrees to pay \$14,500 to AYS for its investigation fees and costs, expert fees, reasonable attorney's fees, and any other costs incurred as a result of investigating, bringing this matter to Ellis's attention, and litigating and negotiating a settlement in the public interest.

5. Total Monetary Obligation and Terms of Payment. Pursuant to paragraph 2 and 4 of this Agreement, Ellis' total monetary obligation is \$31,500. Ellis shall make seven equal monthly payments of \$4,500, beginning on January 31, 1996, and on the last day of each month thereafter until paid.

6. AYS Reliance on Information Supplied by Ellis. Ellis understands that the sales, financial, and compliance information as provided to counsel for AYS by Ellis in letters prior to December 15, 1995, were material factors upon which AYS has relied to determine the amount of restitution in this Agreement. Ellis warrants that the sales, financial, and compliance information provided in the above-referenced communications are true and accurate. Ellis acknowledges that, in the event AYS finds that said data were materially inaccurate, all other parts of this Agreement notwithstanding, AYS will have the right to rescind this Agreement and re-institute an enforcement action against Ellis. In such a case, all applicable statutes of limitation shall be deemed tolled for the period between August 24, 1995 (the date AYS filed the AYS Action) and the date AYS notifies Ellis that it is rescinding this Agreement pursuant to this subpart.

7. **Supplier Information.** Ellis agrees to provide AYS with a copy of its current compilation of all Material Safety Data Sheets ("MSDSs") which Ellis has received from its suppliers of Proposition 65 chemicals, copies of labels from the containers in which Ellis has received Proposition 65 chemicals during the last six months, if any, and any other warning materials received from such suppliers which are currently in Ellis' possession. Ellis shall also provide AYS with an affidavit from an employee of Ellis having the requisite knowledge and authority to state that the MSDSs, labels and other warning materials currently in Ellis' possession were in fact received from each such supplier of Proposition 65 chemicals and that all such warning materials currently in Ellis' possession are attached to such affidavit.

8. **Stipulated Judgment.** AYS shall, immediately upon execution hereof, file a First Amended Complaint in which AYS shall not make any change other than to identify and list the Ellis Products pursuant to Exhibit "A" hereto. Once filed, the First Amended Complaint shall be known, for the purposes of this Agreement, as the AYS Action. The parties shall file a stipulated judgment to be approved pursuant to Code of Civil Procedure §664.6 by the San Mateo Superior Court in accordance with the terms of this agreement. Said judgment shall be prepared by counsel for Ellis and approved as to form by counsel for AYS.

9. **AYS Release.** In further consideration of this Agreement, the obligations hereunder, and for other good and valuable consideration, AYS forever releases, discharges, and acquits Ellis and Ellis' respective present or former directors, officers, employees, agents, trustees, attorneys, insurers and reinsurers, subsidiaries, divisions, predecessors or successors, and their respective heirs, executors, administrators, successors and assigns, from any and all claims, demands, rights and causes of action, which arise out of the AYS Action.

10. **Ellis Release.** Ellis, by this Agreement, waives all rights to institute any form of legal action against AYS, its members, officers, directors, attorneys and representatives (the "AYS Releasees") for all actions or statements made by the AYS Releasees in the course of seeking enforcement of Proposition 65 or Business & Profession Code §§17200 et seq. against Ellis.

11. **Waiver by AYS.** AYS waives all rights to institute an action against Ellis, its distributors or customers which sell or use Ellis's Products, whether under Proposition 65, Business & Professions Code § 17200 et seq., or any other statute, regulation or common law claim based on Ellis' failure to warn, prior to the effective date hereof, individuals about exposure to Proposition 65 listed chemicals in any of the Products listed on Exhibit A.

12. Investigation. Each Party has made an investigation of the facts pertaining to this Agreement, as he, she or it deems necessary.

13. Representations and Warranties. The Parties make the following representations and warranties:

13.1 AYS hereby represents, warrants, and covenants that it is the sole and absolute owner of the AYS Action, and that it has full and lawful authority to enter into this Agreement. AYS further represents and warrants that it has not previously assigned, transferred or purported to assign or transfer to any other person or entity, either voluntarily or involuntarily, any claim, cause of action, or right, or any portion thereof, based upon, arising out of or in connection with any matter, fact, or thing described or set forth in this Agreement.

13.2 Ellis represents and warrants as follows:

13.2.1 Each of the Products listed in Exhibit "A" contains one or more substances known to the state of California to cause cancer, or birth defects or other reproductive harm, and that Ellis has no analytical, risk assessment, or other data indicating that an exposure to any or all Products listed in Exhibit "A" poses "no significant risk" or will have "no observable effect," as each such standard is applicable and as each is defined under Health & Safety Code §25249.10(c).

13.2.2 In the event that Ellis obtains analytical, risk assessment, or other data that shows that an exposure to any or all Products listed in Exhibit "A" poses "no significant risk" or will have "no observable effect," as each such standard is applicable and as each is defined under Health & Safety Code § 25249.10(c), Ellis shall provide AYS with 90 days prior written notice of its intent to limit or eliminate the warning provisions under Section 1 and shall provide AYS with all such supporting data. Within thirty (30) days of receipt of Ellis' exposure data, AYS shall provide Ellis with written notice of its desire to challenge the data (in the event that AYS chooses to make such a challenge), and AYS and Ellis shall negotiate in good faith to attempt to reach a settlement. In the event that no settlement is reached within thirty (30) days of mailing by AYS of such notice of challenge, AYS and Ellis agree to submit such challenge to binding arbitration, with an arbitrator acceptable to both parties. The prevailing party shall be entitled to reasonable attorney's fees and costs associated with such an arbitration. If AYS does not challenge Ellis' notice or the arbitrator determines that no warning is required for a particular Product or Products, Ellis shall no

longer be required to provide the warnings described in Section 1 of this Agreement for those Products.

14. No Admissions. This Agreement affects the settlement of claims which are denied and contested and nothing contained herein shall be construed as an admission by anyone of any liability of any kind to anyone. Each Party to this Agreement understands, acknowledges and agrees that the negotiation, execution and performance of this Agreement shall not constitute, or be construed as, an admission of any liability whatsoever by any Party.

15. Effective Date. This Agreement shall be deemed to be effective upon the date first stated hereinabove, regardless of when actually signed by any Party.

16. Waiver. No breach of any provisions hereof can be waived unless done so in writing. Waiver of any one breach shall not be deemed to be a waiver of any other breach of the same or other provisions hereof.

17. Reference to Pronouns. All pronouns and all variations thereof shall be deemed to refer to the masculine, neuter, singular, or plural, as the identity of the antecedent person, persons, entity, or entities may require.

18. Severability. In the event that any provision of this Agreement is deemed to be invalid and/or unenforceable, such provision shall be severable from the remainder hereof, and shall not cause the invalidity or unenforceability of the balance of this Agreement.

19. Good Faith. The Parties shall act reasonably and in good faith in all matters pertaining to this Agreement.

20. Entities Not Parties. No individual or entity who is not a Party or agent of a Party to this Agreement shall have any rights or shall be entitled to any benefits hereunder.

21. Counterparts. The Parties agree that this Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one agreement.

22. Construction. The Parties hereto and their counsel have reviewed this Agreement, and agree that the normal rule of construction that any ambiguities in this Agreement are to be construed against the drafting Party shall not be employed in interpretation of this Agreement.

23. Inducement. The undersigned declare and represent that no promise, inducement, or agreement not herein expressed has been made to him or any of his representatives, and this Agreement contains the entire agreement between the Parties. The terms of this Agreement are contractual in nature and not mere recitals.

24. Defense to Future Acts. Each Party to this Agreement understands, acknowledges and agrees that this Agreement may be pleaded as an affirmative defense to, and used as a basis for an application for an injunction against, any action, suit or other proceeding that may be instituted, prosecuted or attempted in alleged breach of this Agreement.

25. Entire Agreement. Each Party to this Agreement understands, acknowledges and agrees that this Agreement constitutes the entire agreement among and between the Parties regarding the matters specified herein and that this Agreement and its terms, provisions, covenants, and conditions may not be altered, amended, modified, waived or otherwise changed in any respect whatsoever except by a written agreement of all Parties which are signatories hereto. The information provided by Ellis to AYS pursuant to paragraph 6 hereof shall be considered a part of the Agreement, even though copies are not attached hereto.

26. Law of Interpretation. Each Party to this Agreement understands, acknowledges and agrees that this Agreement shall be construed under, and interpreted in accordance with, the laws of the State of California as they exist on the date that this Agreement is fully executed by the Parties.

27. Advice of Counsel. Each Party to this Agreement understands, acknowledges and agrees that it has entered into this Agreement freely and voluntarily, after consulting with its counsel and receiving its counsel's explanation and advice as to each of the terms hereof.

28. Attorney's Fees. Each Party to this Agreement understands, acknowledges and agrees that if any Party hereto institutes any subsequent action in law or in equity to enforce this agreement, the party or parties not prevailing in such subsequent action shall pay to the party or parties prevailing all fees, costs, and expenses, including reasonable attorney's fees, incurred by the prevailing party or parties in connection therewith.

29. Successors. Each Party to this Agreement acknowledges and agrees that this Agreement shall be binding upon and inure to the benefit of all Parties hereto and upon their heirs, administrators, representatives, executors, successors and assigns.

30. Notices and Correspondence. All notices and correspondence to AYS shall be mailed to:

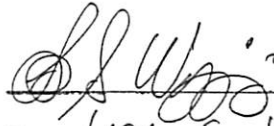

Eric S. Somers, Esq.
Andrew L. Packard, Esq.
Chanler & Somers
1700 Montgomery Street
Suite 110
San Francisco, CA 94111

All correspondence to Ellis shall be mailed to:
